Vice Rector Partnering
Prof. Gisela Grosse

Strategic Partnerships with

     corporations (e.g. BASF)
     networks (e.g. TIMP www.timp.nl)
     communities/municipals (e.g. Kreis Steinfurt)
   universities (e.g. www.UAS7.org)

6 Golden Rules in Partnering

➔ **Rule 1:** Both partners must achieve distinctive <u>benefits/advantages</u> through the cooperation and/or partnership. Those benefits have to be clearly defined.

➔ **Rule 2:** A strategic cooperation has to be agreed by <u>contract</u>. There must be at least one standard bearer on each side.

➔ **Rule 3:** Go always only for no. 1 or the <u>market leader</u> or visionaries first, only in step 2 switch to no. 2.
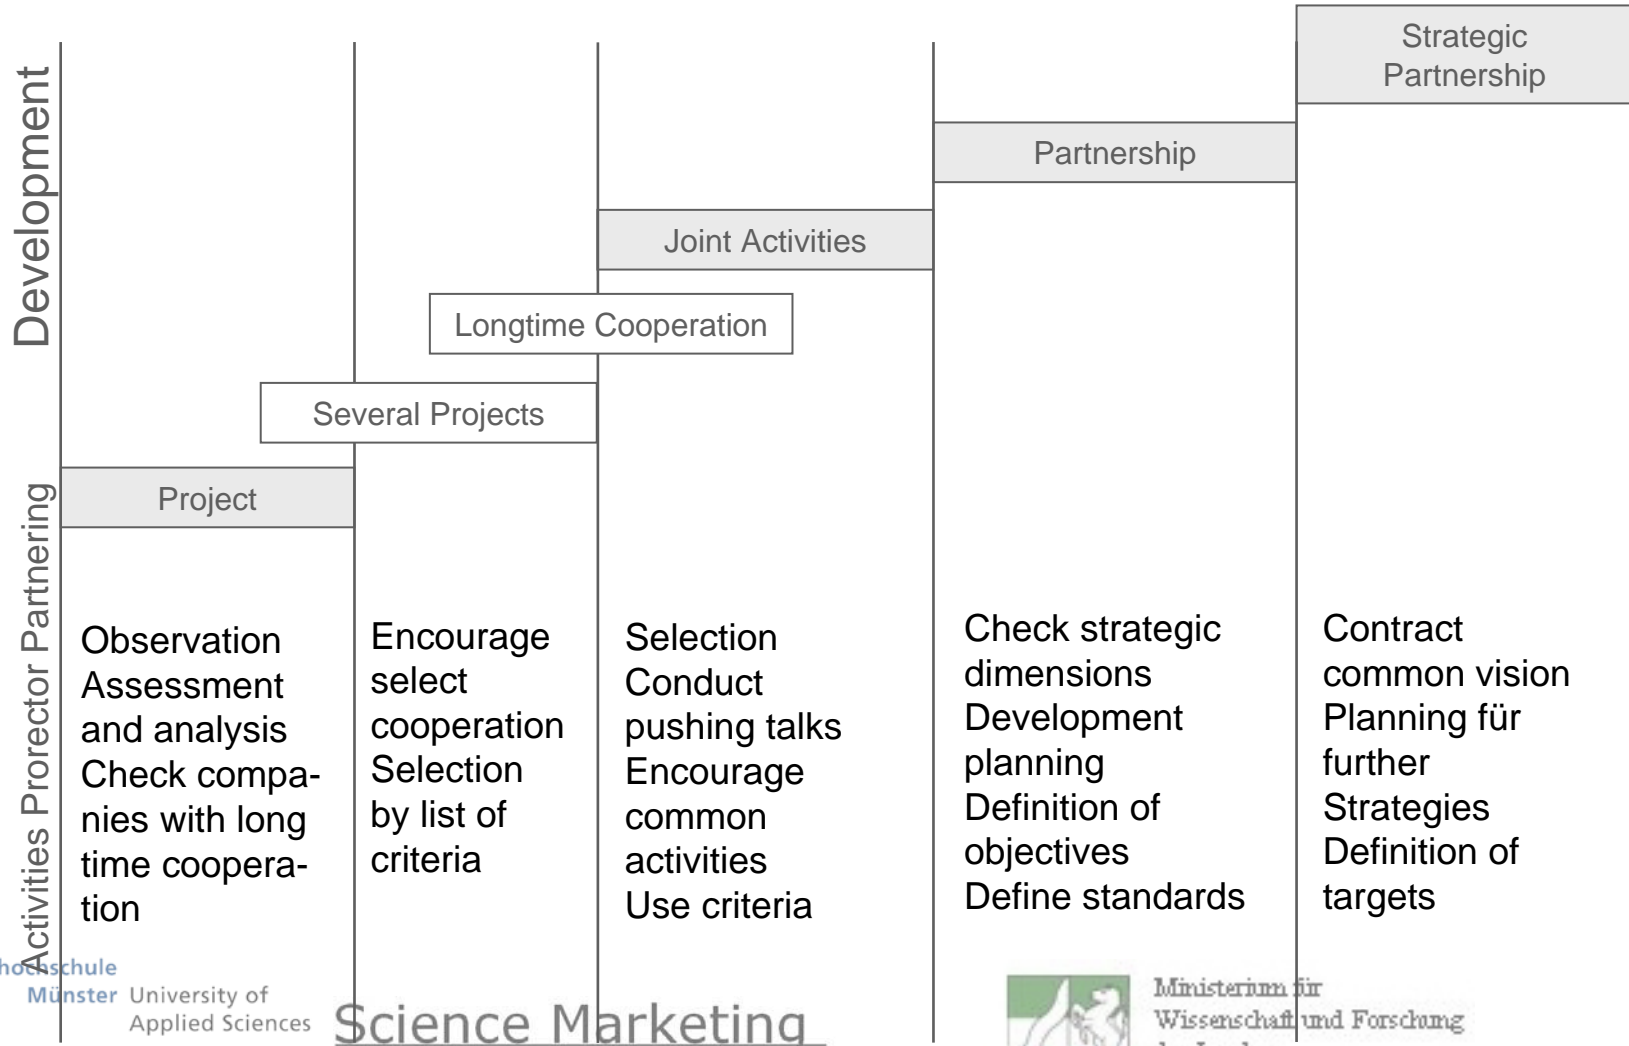

➔ Rule 4: Act <u>fast</u>, strategic partnerships are developing right now (and who is already bound is not free any more).

➔ Rule 5: Co-operations have to evaluated and <u>validated</u> again after a certain amount of time (possibly terminated at the start).

➔ Rule 6: The development of a partnership requires a top form of individuality in defining the benefits and the procedures by <u>PRM</u>.

Potential benefits of CRM/PRM

	Marketing	Partnering	Key accounting
Analytical			
Analyses			
Operational			
(Inter)action		•Life communication Server •Instant messaging •Web casts	
Control			

Source: Wicht

1. Open source solution (Sugar CRM)
   www.sugarcrm.com/crm/

2. Microsoft CRM (easy integration to MS Office World)

3. On-Demand (www.salesforce.com) Standard system – but integration into an existing organisation (particularly with regard to a University ☺) is challenging and demanding.

… is a key for successful

University partnering & business in the future!
